

Datasheet: 0200-0469

Description:	MOUSE ANTI DEHYDROEPIANDROSTERONE		
Specificity:	DEHYDROEPIANDROSTERONE		
Other names:	DHEA		
Format:	Purified		
Product Type:	Monoclonal Antibody		
Product Type: Clone:	Monoclonal Antibody 1-24.1 (BGN/1177/1241)		
	,		

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen			•	
Immunohistology - Paraffin			•	
ELISA	-			
Western Blotting				

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Specificity	Mouse anti Dehydroepiandrosterone antibody was raised against		
Immunogen	DHEA-3-HS-BSA.		
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml		
Carrier Free	Yes		
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)		
Buffer Solution	Phosphate buffered saline		
Preparation	Purified IgG prepared by affinity chromatography on Protein A		
Product Form	Purified IgG - liquid		
Target Species	Broad		

Mouse anti Dehydroepiandrosterone antibody was raised against DHEA but demonstrates greater reactivity with DHEAS.

DHEAS 100% DHEA 13%

Progesterone < 0.01% Testosterone 0.02%

DHEA is the most abundant hormone in the human body and a precursor of all the sex hormones. It is synthesised principally in the adrenal glands and gonads from cholesterol, through conversion to pregnenolone and 17α-Hydroxypregnenolone, by the action of P450 enzymes. DHEA is mainly found in serum as the sulphated form (DHEAS), a reversible reaction catalysed by sulfotransferase in the adrenal glands, liver and small intestine.

Storage

Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before

use.

Shelf Life

18 months from date of despatch.

Health And Safety Information

Material Safety Datasheet documentation #10040 available at:

10040: https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf

Regulatory

For research purposes only
