

Datasheet: 643002

Description:	DONKEY ANTI RAT IgG (H/L):FITC (MOUSE ADSORBED)		
Specificity:	IgG (H/L)		
Format:	FITC		
Product Type:	Polyclonal Antibody		
Isotype:	Polyclonal IgG		
Quantity:	1 mg		

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunofluorescence				

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Rat				
Species Cross Reactivity	Does not react with:Mouse				
Product Form	Purified IgG conjugated to Fluorescein Isothiocyanate Isomer 1 (FITC)				
Max Ex/Em	Fluorophore FITC	Excitation Max (nm) 490	Emission Max (nm) 525		
Buffer Solution	Phosphate buffered saline				
Preservative Stabilisers	0.1% Sodium Azide (NaN ₃)				
Approx. Protein Concentrations	1.0 mg/ml				
Immunogen	Rat IgG.
