

Datasheet: 8350-1010

Description:	RABBIT ANTI HUMAN SPASTIN
Specificity:	SPASTIN
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			1/100 - 1/1000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	Based on sequence similarity, is expected to react with:Vertebrates N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 5.0 mg/ml
Immunogen	Synthetic peptide corresponding to the amino acids 130 - 142 (ALRIDEDEKAGQK) human spastin conjugated to Keyhole limpet Haemocyanin.
External Database Links	UniProt: Q9UBP0 Related reagents Entrez Gene:

Synonyms	ADPSP, FSP2, KIAA1083, SPG4
-----------------	-----------------------------

Specificity	Rabbit anti Human Spastin recognises an epitope between amino acids 130-142 of human spastin. The antibody has been tested for cross reactivity against the following peptides. Spastin 171-185 peptide <=0.1% Spastin 204-215 peptide <=0.1% Spastin 561-573 peptide <=0.1% Determined by competitive ELISA
--------------------	---

Western Blotting	8350-1010 detects bands between 50 to 60 kDa in human brain total protein lysate under reducing conditions.
-------------------------	---

Storage	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
----------------	---

Shelf Life	18 months from date of despatch.
-------------------	----------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10040 available at: 10040: https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
--------------------------------------	--

Regulatory	For research purposes only
-------------------	----------------------------
