

Datasheet: AHP1009

Description:	RABBIT ANTI BECLIN-1 (N-TERMINAL)
Specificity:	BECLIN-1 (N-TERMINAL)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	•			
Immunohistology - Frozen			•	
Immunohistology - Paraffin (1)				
ELISA			•	
Immunoprecipitation				
Western Blotting				0.5ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species	Human	
Species Cross	Reacts with: Mouse, Rat	
Reactivity	N.B. Antibody reactivity and working conditions may vary between sp	ecies.
Product Form	Purified IgG - liquid	
Antiserum Preparation	Antisera to human Beclin-1 (NT) were raised by repeated immunisation purified antigen. Purified IgG prepared by affinity chromatography.	ons of rabbits with highly
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.02% Sodium Azide (NaN ₃)	
Approx. Protein Concentrations	IgG concentration 1.0mg/ml	
Immunogen	A 17 amino acid peptide located near human Beclin-1 amino-terminu	S.

The ability of cells to undergo bulk degradation of endogenous proteins through an autophagosomic-lysosomal pathway, termed autophagy or Type II cell death, is important in the control of cell growth and development. Studies have identified Beclin-1 as a Bcl-2 interacting mammalian gene which not only mediates autophagy, but also functions as a tumour suppressor, being expressed at reduced levels in human breast carcinoma, and may also play a role in defense against viral infection. An increasing number of studies have revealed an interaction between proteins which induce autophagy and those involved in apoptosis and in some instances apoptosis may be dependant upon or delayed by autophagy. AHP1009 detects a band of approximately 52kDa in human 293 cell lysates. Western Blotting **Further Reading** 1. Liang, X.H. et al. Oncogene. 23: 2891-2906. 3. Liang, X.H. et al. (1998) Protection against fatal Sindbis virus encephalitis by Beclin, a novel Bcl-2-interacting protein. J. Virol. 72: 8586-8596. **Storage** Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. **Shelf Life** 18 months from date of despatch.
