

Datasheet: AHP2295

Description:	RABBIT ANTI CDC42
Specificity:	CDC42
Other names:	CELL DIVISION CONTROL PROTEIN 42 HOMOLOG
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	■			10 - 20 µg/ml
Western Blotting	■			0.5 - 4.0 µg/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse Based on sequence similarity, is expected to react with: Rat, Bovine N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	30% Glycerol 0.5% Bovine Serum Albumin 0.01% Thiomersal
Approx. Protein Concentrations	IgG concentration 0.2 mg/ml
Immunogen	Synthetic peptides surrounding amino acid 144 of human CDC42
External Database Links	UniProt: P60953 Related reagents Entrez Gene:

Specificity	Rabbit anti CDC42 antibody recognizes cell division control protein 42 homolog (CDC42) also known as G25K GTP-binding protein. CDC42 is a small GTPase that plays a role in mediating cell migration, fillopodia formation and cell polarization. Based on sequence homology, this antibody may react with Rac protein family members.
Western Blotting	Rabbit anti CDC42 antibody recognizes a band of approximately 21 kDa in 3T3 and Jurkat cell lysates
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Shelf Life	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10096 available at: 10096: https://www.bio-rad-antibodies.com/uploads/MSDS/10096.pdf
Regulatory	For research purposes only
