

Datasheet: AHP2305

Description:	RABBIT ANTI eNOS
Specificity:	eNOS
Other names:	NOS3
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			0.5 - 4.0 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Rat
Species Cross Reactivity	Reacts with: Human Based on sequence similarity, is expected to react with: Mouse N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	30% Glycerol 0.5% Bovine Serum Albumin 0.01% Thiomersal
Approx. Protein Concentrations	IgG concentration 0.5 mg/ml
Immunogen	Synthetic peptide surrounding amino acid 602 of rat eNOS
External Database Links	UniProt: Q62600 Related reagents
Specificity	Rabbit anti eNOS antibody recognizes endothelial nitric oxide synthase (eNOS). Endothelial NOS

catalyses the synthesis of nitric oxide (NO), a signaling molecule and vasodilator, in the vascular endothelium. In addition to its role as a vasodilator, NO has important anti-inflammatory, anti-proliferative and anti-thrombotic properties.

Western Blotting	Rabbit anti eNOS antibody recognizes bands of approximately 140 kDa (Full length eNOS) and 60 kDa (cleaved fragment) in Jurkat cell lysates
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Shelf Life	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10096 available at: 10096: https://www.bio-rad-antibodies.com/uploads/MSDS/10096.pdf
Regulatory	For research purposes only
