

Datasheet: AHP2428

Description:	RABBIT ANTI ADD1
Specificity:	ADD1
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	■			1/50 - 1/200
Western Blotting	■			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse Based on sequence similarity, is expected to react with: Rat N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to ADD1 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol
Immunogen	Recombinant human ADD1
External Database Links	UniProt: P35611 Related reagents Entrez Gene: 118 ADD1 Related reagents

Synonyms	ADDA
Specificity	Rabbit anti ADD1 antibody recognizes alpha-adducin (encoded by the gene ADD1), also known as ADDA or erythrocyte adducing subunit alpha. Alpha-adducin is a member of the adducin family of cytoskeleton proteins. Adducin is a heterodimeric protein consisting of either ADD1 (alpha)/ADD2 (beta) subunits or ADD1 (alpha)/ADD3 (gamma) subunits. Adducin mediates the formation of the spectrin-actin network.
Western Blotting	Rabbit anti ADD1 antibody detects a band of approximately 70 kDa in BT474 cell lysate and mouse tissue lysate under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Shelf Life	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: 10049: https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf
Regulatory	For research purposes only
