

Datasheet: AHP2450

Description:	RABBIT ANTI CD127
Specificity:	CD127
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Based on sequence similarity, is expected to react with: Mouse, Rat
N.B. Antibody reactivity and working conditions may vary between species.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to CD127 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative

0.02% Sodium Azide

Stabilisers

50% Glycerol

Immunogen

Recombinant human CD127

Specificity

Rabbit anti CD127 antibody recognizes CD127, also known as interleukin 7 receptor subunit alpha or IL-7R-alpha. CD127 is a member of the type I cytokine receptor family. CD127 associates

with interleukin-2 receptor gamma chain (CD132) forming the IL-7 receptor complex. CD127 is important in lymphocyte differentiation, proliferation and survival.

Western Blotting	Rabbit anti CD127 antibody detects a band of approximately 52 kDa in cell lysates under reducing conditions
-------------------------	---

Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
----------------	--

Shelf Life	12 months from date of despatch
-------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation available at: Material Safety Datasheet documentation #10049 available at https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf
--------------------------------------	--

Regulatory	For research purposes only
