

Datasheet: AHP2452

Description:	RABBIT ANTI CD322
Specificity:	CD322
Other names:	JAM2
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to CD322 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol
Immunogen	Recombinant human CD322
External Database Links	UniProt: P57087 Related reagents Entrez Gene: 58494 JAM2 Related reagents
Synonyms	C21orf43, VEJAM
Specificity	Rabbit anti CD322 antibody recognizes CD322, also known as junctional adhesion molecule B

(JAMB), junctional adhesion molecule 2 (JAM2) or vascular endothelial junction-associated molecule.

CD322 is a type I membrane protein that is a member of both the immunoglobulin superfamily as well as the junctional adhesion molecule (JAM) family. CD322 is localized at tight junctions of endothelial and epithelial cells and is involved in adhesion and leukocyte transendothelial migration.

Western Blotting	Rabbit anti CD322 antibody detects a band of approximately 48 kDa in cell lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Shelf Life	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: 10049: https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf
Regulatory	For research purposes only
