

Datasheet: AHP2473

Description:	RABBIT ANTI HEAT SHOCK PROTEIN 90 ALPHA
Specificity:	HEAT SHOCK PROTEIN 90 ALPHA
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	■			1/50 - 1/100
Western Blotting	■			1/500 - 1/2000
Immunofluorescence	■			1/20 - 1/50

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to heat shock protein 90 alpha was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol
Immunogen	Recombinant human heat shock protein 90 alpha
External Database Links	UniProt: P07900 Related reagents Entrez Gene: 3320 HSP90AA1 Related reagents

Synonyms	HSP90A, HSPC1, HSPCA
Specificity	Rabbit anti heat shock protein 90 alpha antibody recognizes heat shock protein 90 alpha also known as HSP90AA1 or LAP2. Heat shock protein 90 alpha is an isoform of the highly conserved heat shock protein 90. Heat shock protein 90 alpha expression is induced under conditions of cellular stress where upon it acts as a molecular chaperone.
Western Blotting	Rabbit anti heat shock protein 90 alpha antibody detects a band of approximately 100 kDa in cell lysates and tissue lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Shelf Life	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: 10049: https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf
Regulatory	For research purposes only
