

Datasheet: AHP2525

Description:	RABBIT ANTI SMAD3
Specificity:	SMAD3
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	■			1/50 - 1/200
Western Blotting	■			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	Based on sequence similarity, is expected to react with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to SMAD3 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol
Immunogen	Recombinant human SMAD3
External Database Links	UniProt: P84022 Related reagents Entrez Gene: 4088 SMAD3 Related reagents
Synonyms	MADH3

Specificity	Rabbit anti SMAD3 antibody recognizes SMAD3, also known as mothers against decapentaplegic homolog 3. SMAD3 is a transcription factor belonging to the dwarfin/SMAD family and is activated by transforming growth factor (TGF-beta) and activin type 1 receptor kinases to modulate transcription. SMAD3 associates with SMAD4, this complex then translocates to the nucleus and activates TGF-beta mediated transcription.
Western Blotting	Rabbit anti SMAD3 antibody detects a band of approximately 48 kDa in U251 cell lysate under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Shelf Life	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: 10049: https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf
Regulatory	For research purposes only
