Datasheet: C12CA

Product Details

Description: BABY RABBIT COMPLEMENT
Name: BABY RABBIT COMPLEMENT
Format: Serum
Product Type: Serum & Cells
Quantity: 2 ml

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product is not sold as sterile but can be sterilized by filtration if necessary. It is preferable to dilute the complement to a final working concentration before filtration in order to minimize loss of volume.

Product Form

Baby rabbit serum - lyophilised

Reconstitution

Reconstitute with 2ml ice cold distilled water

Preservative Stabilisers

None present

Product Information

Baby rabbit complement serum preparation is intended for use as a source of rabbit complement for cytotoxicity studies.

Instructions For Use

Use within one hour of reconstitution, keeping on ice throughout.
