Datasheet: HCA204

Description: HUMAN ANTI ADALIMUMAB

Specificity: ADALIMUMAB

Other names: HUMIRA®

Format: Purified

Product Type: Monoclonal Antibody

Clone: AbD18655_hIgG1

Isotype: IgG1

Quantity: 0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form

Human IgG1 antibody (lambda light chain) selected from the HuCAL® phage display library and expressed in a human cell line. This antibody is supplied as a liquid.

Preparation

Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.01% Thiomersal

Approx. Protein Concentrations

Antibody concentration 0.5 mg/ml.

Immunogen

Adalimumab (Humira®)

Specificity

Human anti Adalimumab, clone AbD18655_hlgG1, is an ultra-high affinity anti-idiotypic antibody that specifically recognizes adalimumab monoclonal antibody and inhibits the binding of adalimumab to its target, TNFα. Clone AbD18655_hlgG1 can be used to measure the levels of adalimumab and biosimilar products using bioanalytical assays. It may also be used to develop and calibrate immune response assays to measure the anti-drug antibody (ADA) response in patient serum.

Adalimumab (branded as Humira®) is a fully human monoclonal antibody (IgG1/kappa)
approved for the treatment of ankylosing spondylitis, Crohn’s disease, psoriasis and several forms of arthritis. The antibody is specific for TNFα, and acts by blocking the activation of TNF receptors by TNFα. This inactivation down-regulates the inflammatory reactions associated with autoimmune diseases.

View a summary of all anti-adalimumab antibodies.

**Affinity**
The monovalent intrinsic affinity of this antibody was measured as $K_D = 0.06 \text{nM}$ by real time, label-free molecular interaction analysis on immobilized adalimumab.

**ELISA**
This product may be used in an indirect ELISA or, when conjugated to HRP, in a bridging ELISA together with HCA202 as the capture reagent.
Protocol: [PK bridging ELISA to measure free drug](#).
This antibody is fully human and can be used as a reference standard in an ADA assay.
Protocol: [ADA bridging ELISA](#).

**Storage**
Store at +4°C or at -20°C if preferred.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

**Shelf Life**
12 months from date of despatch.

**Acknowledgements**
Sold under license of U.S. Patents 6753136, 7785859 and 8273688 and corresponding patents. This antibody was developed by Bio-Rad, Zeppelinstr. 4, 82178 Puchheim, Germany. Humira® is a registered trademark of Abbott Laboratories.

**Health And Safety Information**

**Licensed Use**
For in vitro research purposes and for commercial applications for the provision of in vitro testing services to support preclinical and clinical drug development. Any re-sale in any form or any other commercial application needs a written agreement with Bio-Rad.

**Regulatory**
For research purposes only

**Technical Advice**
Recommended protocols and further information about HuCAL recombinant antibody technology can be found in the [HuCAL Antibodies Technical Manual](#).
