

# Datasheet: MCA1556A647T

Description:	MOUSE ANTI HUMAN CD10:Alexa Fluor® 647			
Specificity:	CD10			
Other names:	CALLA			
Format:	ALEXA FLUOR® 647			
Product Type:	Monoclonal Antibody			
Clone:	SN5c			
lsotype:	lgG1			
Quantity:	25 TESTS/0.25ml			

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol								
	recommendations, please visit www.bio-rad-antibodies.com/protocols.								
		Yes	No	Not Determined	Suggested Dilution				
	Flow Cytometry         1/5 - 1/10								
	-	Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is							
		e user titrates the		for use in their own syst					
Target Species	Human								
Product Form	Purified IgG conjugated to Alexa Fluor® 647- liquid								
Max Ex/Em	Fluorophore	Excitation Max (	(nm) Emi	ssion Max (nm)					
	Alexa Fluor®647	650		665					
Preparation	Purified IgG prepared	by affinity chrom	natography	on Protein G from tissu	e culture supernatant				
Buffer Solution	Phosphate buffered saline								
Preservative	0.09% Sodium Azide								
Stabilisers	1% Bovine Serum	Albumin							
Approx. Protein Concentrations	IgG concentration 0.05 mg/ml								
Immunogen	Partially purified cell membrane antigens from fresh leukemia cells
