Datasheet: MCA1781PE

**Description:** MOUSE ANTI CANINE CD21:RPE

**Specificity:** CD21

**Format:** RPE

**Product Type:** Monoclonal Antibody

**Clone:** CA2.1D6

**Isotype:** IgG1

**Quantity:** 100 TESTS

**Product Details**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

(1) **N.B.** MCA1781PE should NOT be used with MCA1774F (mouse anti canine CD3), in dual colour flow cytometry, due to non-specific interactions between the two reagents.

**Target Species**

Dog

**Species Cross Reactivity**

Reacts with: Horse, Cat, Raccoon

**N.B.** Antibody reactivity and working conditions may vary between species.

**Product Form**

Purified IgG conjugated to R. Phycoerythrin (RPE) - lyophilized

**Reconstitution**

Reconstitute with 1 ml distilled water

**Max Ex/Em**

**Preparation**

Purified IgG prepared by affinity chromatography on Protein G

**Buffer Solution**

Phosphate buffered saline

**Preservative Stabilisers**

0.09% Sodium Azide  
1% Bovine Serum Albumin

**Specificity**

Mouse anti Canine CD21 antibody, clone CA2.1D6 recognizes canine CD21, also known as
Complement receptor type 2. CD21 is a cell surface antigen expressed by canine B lymphocytes.

The antigen recognised may be the canine homologue of human CD21, but this has not been fully confirmed.

Mouse anti Canine CD21 antibody, clone CA2.1D6 also recognizes the CD21 antigen in Felids. Expression in cats is analogous to that seen in dogs with strong expression on lymphocytes, in a manner mutually exclusive with expression of CD4 or CD8. Clone CA2.1D6 also immunoprecipitates a ~145 kDa protein from feline lymphocytes, similar to the protein immunoprecipitated by the antibody from canine lymphocytes (Dean et al. 1996).

Flow Cytometry

**Storage**

Prior to reconstitution store at +4°C. Following reconstitution store at +4°C.

**DO NOT FREEZE.**

This product should be stored undiluted. This product is photosensitive and should be protected from light. Should this product contain a precipitate we recommend microcentrifugation before use.

**Shelf Life**

12 months from date of reconstitution.

**Health And Safety Information**

**Regulatory**

For research purposes only
