<b>Specificity</b>	<p><b>Mouse anti Human tubulin beta 2C antibody, clone 1G3</b> recognizes human tubulin beta-4B chain, also known as tubulin beta 2 or tubulin beta 2C encoded by the TUBB4B gene. Tubulin beta 2C is a 445 amino acid ~50 kDa cytoskeletal protein, the predominant component of microtubules where it forms heterodimers with tubulin alpha chain components.</p> <p>Tubulin beta 2C is one of several tubulin beta isotypes incorporated into microtubules differentially according to cell specific requirements and interactions with other cytoskeletal components (<a href="#">Falconer et al. 1992</a>). Tubulin beta 2C is up-regulated in sentinel lymph nodes from patients with colorectal cancer (<a href="#">He et al 2010</a>).</p>
<b>Storage</b>	<p>Store at -20°C only.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
<b>Shelf Life</b>	18 months from date of despatch.
