

Datasheet: MCA5224Z

Description:	MOUSE ANTI HUMAN ACTIN:Preservative Free
Specificity:	ACTIN (AORTIC)
Format:	Preservative Free
Product Type:	Monoclonal Antibody
Clone:	1D11-2B9
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			0.1 - 10 ug/ml
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present
Approx. Protein Concentrations	Ig concentration 0.5 mg/ml
Immunogen	Recombinant protein corresponding to aa 1 - 378 of human ACTIN
External Database Links	<p>UniProt: P62736 Related reagents</p> <p>Entrez Gene: 59 ACTA2 Related reagents</p>

Synonyms	ACTSA, ACTVS
Fusion Partners	Spleen cells from BALB/c mice were fused with cells from the Sp2/0 myeloma cell line.
Specificity	<p>Mouse anti Human actin antibody, clone 1D11-2B9 recognizes human aortic smooth muscle actin, also known as Cell growth-inhibiting gene 46 protein or alpha actin-2, encoded by the ACTA2 gene, itself also known as ACTSA, ACTVS or GIG46. Aortic smooth muscle actin is a 377 amino acid ~42kDa cytoskeletal protein and major component of the contractile apparatus. Defects in the ACTA gene can result in a variety of vascular diseases including premature onset coronary artery disease and MoyaMoya disease (Guo et al. 2009).</p> <p>Mouse anti human actin antibody, clone 1D11-2B9 has been used successfully for the detection of actin in HeLa cell lysates using western blotting.</p>
Storage	<p>Store at -20°C only.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Shelf Life	18 months from date of despatch.
Health And Safety Information	<p>Material Safety Datasheet documentation available at: Material Safety Datasheet Documentation #10162 available at: https://www.bio-rad-antibodies.com/uploads/MSDS/10162.pdf</p>
Regulatory	For research purposes only
