

## Datasheet: MCA5729G

|                      |                     |
|----------------------|---------------------|
| <b>Description:</b>  | MOUSE ANTI AMIKACIN |
| <b>Specificity:</b>  | AMIKACIN            |
| <b>Format:</b>       | Purified            |
| <b>Product Type:</b> | Monoclonal Antibody |
| <b>Clone:</b>        | AM1                 |
| <b>Isotype:</b>      | IgG1                |
| <b>Quantity:</b>     | 1 mg                |

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

|             | Yes | No | Not Determined | Suggested Dilution |
|-------------|-----|----|----------------|--------------------|
| ELISA       | ■   |    |                |                    |
| Immunoassay | ■   |    |                |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

|---------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target Species</b>                 | Chemical                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Product Form</b>                   | Purified IgG - liquid                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Preparation</b>                    | Purified IgG prepared by affinity chromatography on Protein A                                                                                                                                                                                                                                                                                                                                            |
| <b>Buffer Solution</b>                | Phosphate buffered saline                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Preservative Stabilisers</b>       | 0.09% Sodium Azide (NaN <sub>3</sub> )                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Approx. Protein Concentrations</b> | IgG concentration 1.0mg/ml                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Specificity</b>                    | <b>Mouse anti Amikacin antibody, clone AM1</b> recognizes Amikacin, an aminoglycoside antibiotic. Amikacin binds to the 30S ribosomal subunit of microbial RNA, disrupting mRNA reading and protein synthesis. It may be used to treat severe infection with multiple drug resistant Gram negative bacteria such as <i>Enterobacter</i> . Potential side effects include kidney damage and hearing loss. |
| <b>Intended Use</b>                   | Bio-Rad recommends that the user determines this product's suitability for any particular application.                                                                                                                                                                                                                                                                                                   |

|                                      |                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Storage</b>                       | <p>Store at +4°C or at -20°C if preferred.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p> |
| <b>Shelf Life</b>                    | 18 months from date of despatch.                                                                                                                                                                                                                                                                                       |
