

Datasheet: VMA00161

Description:	MOUSE ANTI EPN2
Specificity:	EPN2
Format:	Purified
Product Type:	PrecisionAb™ Monoclonal
Clone:	OT11H3
Isotype:	IgG1
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Mouse monoclonal antibody purified by affinity chromatography from ascites.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 50% Glycerol
Immunogen	Full length recombinant human EPN2 (NP_055779) produced in HEK293T cells
External Database Links	UniProt: O95208 Related reagents Entrez Gene: 22905 EPN2 Related reagents
Synonyms	KIAA1065

Specificity	Mouse anti Human EPN2 antibody recognizes EPN2, also known as EPS-15-interacting protein 2, Eps15 binding protein and epsin-2. The EPN2 gene encodes a protein which interacts with clathrin and adaptor-related protein complex 2, alpha 1 subunit. The protein is found in a brain-derived clathrin-coated vesicle fraction and localizes to the peri-Golgi region and the cell periphery. The protein is thought to be involved in clathrin-mediated endocytosis. Alternate splicing of EPN2 results in multiple transcript variants encoding different isoforms (provided by RefSeq, Jul 2008). Mouse anti Human EPN2 antibody detects a band of 68 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti EPN2 detects a band of approximately 68 kDa in HEK293 cell lysates.
Instructions For Use	Please refer to the PrecisionAb western blotting protocol . For additional information on secondary antibody dilution and exposure time see product web page.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Shelf Life	As supplied, 12 months from date of despatch.
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10048 available at: Antibody (10048): https://www.bio-rad-antibodies.com/uploads/MSDS/10048.pdf
Regulatory	For research purposes only
