

Datasheet: VMA00259

Description:	MOUSE ANTI MCM2
Specificity:	MCM2
Format:	Purified
Product Type:	PrecisionAb™ Monoclonal
Clone:	OTI3B6
Isotype:	IgG1
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Mouse monoclonal antibody purified by affinity chromatography from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 50% Glycerol
Immunogen	Full length recombinant human MCM2 (NP_004517) produced in HEK293T cells
External Database Links	UniProt: P49736 Related reagents Entrez Gene: 4171 MCM2 Related reagents

Synonyms	BM28, CCNL1, CDCL1, KIAA0030
Specificity	Mouse anti Human MCM2 antibody recognizes the DNA replication licensing factor MCM2, also known as DNA replication licensing factor MCM2, MCM2 minichromosome maintenance deficient 2, mitotin, cell division cycle-like 1, cyclin-like 1, minichromosome maintenance deficient 2 (mitotin), minichromosome maintenance protein 2 homolog and nuclear protein BM28. The protein encoded by MCM2 gene is one of the highly conserved mini-chromosome maintenance proteins (MCM) that are involved in the initiation of eukaryotic genome replication. The hexameric protein complex formed by MCM proteins is a key component of the pre-replication complex (pre_RC) and may be involved in the formation of replication forks and in the recruitment of other DNA replication related proteins. This protein forms a complex with MCM4, 6, and 7, and has been shown to regulate the helicase activity of the complex. This protein is phosphorylated, and thus regulated by, protein kinases CDC2 and CDC7. Multiple alternatively spliced transcript variants have been found, but the full-length nature of some variants has not been defined (provided by RefSeq, Oct 2012). Mouse anti Human MCM2 antibody detects a band of 125 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti MCM2 detects a band of approximately 125 kDa in Jurkat cell lysates
Instructions For Use	Please refer to the PrecisionAb western blotting protocol . For additional information on secondary antibody dilution and exposure time see product web page.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Shelf Life	As supplied, 12 months from date of despatch.
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10048 available at: Antibody (10048): https://www.bio-rad-antibodies.com/uploads/MSDS/10048.pdf
Regulatory	For research purposes only
