

Datasheet: VMA00463

Description:	MOUSE ANTI RIG-I
Specificity:	RIG-I
Format:	Purified
Product Type:	PrecisionAb™ Monoclonal
Clone:	6C1
Isotype:	IgG2a
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 50% Glycerol
Immunogen	Full length recombinant protein of human RIG-I produced in HEK293T cell
External Database Links	UniProt: O95786 Related reagents Entrez Gene: 23586 DDX58 Related reagents
Specificity	Mouse anti Human RIG-I antibody recognizes RIG-I, also known as DEAD box protein 58, DEAD/H (Asp-Glu-Ala-Asp/His) box polypeptide or retinoic acid-inducible gene 1 protein.

DEAD box proteins, characterized by the conserved motif Asp-Glu-Ala-Asp (DEAD), are putative RNA helicases which are implicated in a number of cellular processes involving RNA binding and alteration of RNA secondary structure. DDX58 encodes a protein containing [RNA helicase-DEAD box protein motifs](#) and two caspase recruitment domains ([CARD](#)). It is involved in viral double-stranded (ds) RNA recognition and the regulation of immune response. (provided by RefSeq, Jul 2008).

Mouse anti Human RIG-I antibody detects a band of 114 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting	Anti RIG-I detects a band of approximately 114 kDa in Jurkat cell lysate
Instructions For Use	Please refer to the PrecisionAb western blotting protocol . For additional information on secondary antibody dilution and exposure time see product web page.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles.
Shelf Life	As supplied, 12 months from date of despatch.
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories.
Health And Safety Information	Material Safety Datasheet documentation #10048 available at: Antibody (10048): https://www.bio-rad-antibodies.com/uploads/MSDS/10048.pdf
Regulatory	For research purposes only
