

Datasheet: VMA00464

Description:	MOUSE ANTI UBA52
Specificity:	UBA52
Format:	Purified
Product Type:	PrecisionAb™ Monoclonal
Clone:	4F2
Isotype:	IgG1
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 50% Glycerol
Immunogen	Synthetic peptide corresponding to residues near the C-terminus of human UBA52
External Database Links	<p>UniProt: P62987 Related reagents</p> <p>Entrez Gene: 7311 UBA52 Related reagents</p>

Synonyms UBCEP2

Specificity **Mouse anti Human UBA52 antibody** recognizes UBA52, also known as ubiquitin carboxyl extension protein 52, ubiquitin-52 amino acid fusion protein or ubiquitin-CEP52.

Ubiquitin is a highly conserved nuclear and cytoplasmic protein that has a major role in targeting cellular proteins for degradation by the 26S proteasome. It is also involved in the maintenance of chromatin structure, the regulation of gene expression, and the stress response. Ubiquitin is synthesized as a precursor protein consisting of either polyubiquitin chains or a single ubiquitin moiety fused to an unrelated protein. UBA52 gene encodes a fusion protein consisting of ubiquitin at the N terminus and ribosomal protein L40 at the C terminus, a C-terminal extension protein (CEP). Multiple processed pseudogenes derived from UBA52 are present in the genome. (provided by RefSeq, Jul 2008).

Mouse anti Human UBA52 antibody detects a band of 11 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.

Western Blotting Anti UBA52 detects a band of approximately 11 kDa in Raji cell lysate

Instructions For Use Please refer to the [PrecisionAb western blotting protocol](#). For additional information on secondary antibody dilution and exposure time see product web page.

Storage Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Shelf Life As supplied, 12 months from date of despatch.
