

Datasheet: VPA00354

Description:	RABBIT ANTI PGK1
Specificity:	PGK1
Format:	Purified
Product Type:	PrecisionAb™ Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Ig fraction - liquid
Preparation	Rabbit Ig fraction prepared by ammonium sulphate precipitation
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	KLH-conjugated synthetic peptide corresponding to aa 117-145 of human PGK1
External Database Links	UniProt: P00558 Related reagents Entrez Gene: 5230 PGK1 Related reagents
Synonyms	PGKA

Specificity	Rabbit anti Human PGK1 antibody recognizes PGK1, also known as phosphoglycerate kinase 1, PRP 2, cell migration-inducing gene 10 protein, epididymis secretory sperm binding protein Li 68p and primer recognition protein 2. The protein encoded by the PGK1 gene is a glycolytic enzyme that catalyzes the conversion of 1,3-diphosphoglycerate to 3-phosphoglycerate. The encoded protein may also act as a cofactor for polymerase alpha. PGK1 lies on the X-chromosome, while a related pseudogene also has been found on the X-chromosome and another on chromosome 19 (provided by RefSeq, Oct 2008). Rabbit anti Human PGK1 antibody detects a band of 45 kDa. The antibody has been extensively validated for western blotting using whole cell lysates.
Western Blotting	Anti PGK1 detects a band of approximately 45 kDa in NIH/3T3 cell lysate
Instructions For Use	Please refer to the PrecisionAb western blotting protocol . For additional information on secondary antibody dilution and exposure time see product web page.
Storage	Store undiluted at -20°C, avoiding repeated freeze thaw cycles
Shelf Life	As supplied, 12 months from date of despatch
Acknowledgements	PrecisionAb™ is a trademark of Bio-Rad Laboratories
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: Antibody (10040): https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
Regulatory	For research purposes only
