

Datasheet: VPA00087

Description:	RABBIT ANTI Smac/DIABLO
Specificity:	SMAC/DIABLO
Format:	Purified
Product Type:	PrecisionAb™ Polyclonal
Isotype:	Polyclonal IgG
Quantity:	100 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			1/1000

PrecisionAb antibodies have been extensively [validated for the western blot application](#). The antibody has been validated at the suggested dilution. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependant on sample type.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Rabbit polyclonal antibody purified by affinity chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Immunogen	Synthetic peptide corresponding to amino acids 225-239 of human Smac.
External Database Links	UniProt: Q9NR28 Related reagents Entrez Gene: 56616 DIABLO Related reagents
Synonyms	SMAC

Specificity **Rabbit anti Human Smac/DIABLO antibody** recognizes human second mitochondria-derived activator of caspase (Smac), otherwise known as direct IAP-binding protein with low pI (DIABLO) or diablo homolog, mitochondrial. Smac is expressed in a variety of tissues and has been identified as a negative regulator of X-linked inhibitor of apoptosis (XIAP), a member of the IAP (inhibitors of apoptosis proteins) family which blocks cell death by caspase inhibition.

Rabbit anti Human Smac/DIABLO antibody detects Smac as a single band of 21 kDa in a wide range of human cell line lysates. Cross reactivity with rodent cell lines is also observed.

Western Blotting Rabbit anti Smac detects a band of approximately 21 kDa in Jurkat cell lysates.

Instructions For Use Please refer to the [PrecisionAb western blotting protocol](#). For additional information on secondary antibody dilution and exposure time see product web page.

Storage Store undiluted at -20°C, avoiding repeated freeze thaw cycles.

Shelf Life As supplied, 12 months from date of despatch.

Acknowledgements PrecisionAb™ is a trademark of Bio-Rad Laboratories.
